## Google MyInfo - How to send a POI to your BMW

### On the Internet from a work or home computer:

- 1) Access the North American Google maps portal (google.maps.ca or google.maps.com)
- 2) Select a POI or street address within North America.
- 3) Select the “Send” link. [✉ Send](#)
- 4) Pop up window requires user to enter the vehicles:
  - i) Home country
  - ii) BMW Assist email address\*
- 5) Press the “Send” icon. POI is sent to car.

**Send**

Send to:  
[Email](#)

**Car**

[GPS](#)

**Include:** B. New Munich Trade Fair Centre

Google Maps can send information to [BMW Assist](#). [Learn more.](#)

**Make:** BMW

**BMW Assist country:** BMW Canada

**BMW Assist account name:**

**Info:** New Munich Trad...

**Notes:**

### In the Vehicle:

- 6) Access the MyInfo tab in the BMW Assist menu
- 7) The complete address and phone\*\* number of the destination are displayed. Vehicles with Navigation have the ability to send the destination to the on-board Navigation system (Option SA 609).

\*For MyInfo to function, customer must include a valid e-mail address in the BMW Assist subscriber agreement. A call can be made to BMW Assist to ensure their profile is updated to support its use.

\*\* A paired Bluetooth® handset allows user to call the destination from the vehicle.
